

Notice of Workplace Exposure to a Communicable Disease

We have been notified that one of our employees has been diagnosed with the novel coronavirus, also known as COVID-19. As such, employees working at 159 Bayview Avenue may have been exposed to this virus. According to the Centers for Disease Control and Prevention (CDC), the virus is thought to spread mainly between people who are in close contact with one another (within about 6 feet) through respiratory droplets produced when an infected person coughs or sneezes.

Great Neck Library took the following measures to ensure the safety of our employees and the public during this coronavirus outbreak, including:

- The staff member's work station had been disinfected;
- Our professional cleaning company has been in to sanitize the entire building for the safety of all.
- The Nassau County Department of Health has been notified.

For more information on COVID-19, including symptoms and treatment, visit the CDC website at www.cdc.gov.
