What Constitutes a Pleasing Room?

Appealing Colors in Rugs and Drapery.
Well-designed Furniture.
Correct Placing of Pieces.

BUT—MOST IMPORTANT is your confidence in the decorator who helped you to produce these interiors, and unless you have that confidence you will not fully realize the joy that comes with the belief in the sturdiness of construction which should be included in your selection and make it an investment and not merely a speculative purchase.

This is the Age of Specialization.
Reflect your wisdom by securing expert advice without charge.

The Town Crier

a century ago, went his rounds, calling out occasional and meagre bits of information. The sound of his bell was eagerly awaited; he brought the news of the day.

The Town Crier, today a modern community newspaper, still goes from house to house bearing the news of North Hempstead. Those who have become acquainted with it await its appearance every Friday as eagerly as the villagers of old awaited its historical predecessor, for they have learned that it brings complete, impartial news of the whole community.

The Town Crier is the only newspaper in this community that is owned, printed and published at home. It is YOUR newspaper.

Each House a Distinctive Example of Colonial Architecture

Munsey Park, at Manhasset, is situated on the choicest part of the estate of the late Mr. Frank A. Munsey. The houses are of six and seven rooms each, on unusually large plots, and of charming simplicity, in genuine early American style. They embody many construction features ordinarily found only in houses of higher price.

Home sites are also available on liberal terms, for builders and individuals.
