## Notice of Exposure to a Communicable Disease

---

Date: April 29, 2022

---

We have just been notified that one of our employees working at 159 Bayview Avenue has been diagnosed with the novel coronavirus, also known as COVID-19.

According to the Centers for Disease Control and Prevention (CDC), the virus is thought to spread mainly between people who are in close contact with one another (within about 6 feet) through respiratory droplets produced when an infected person coughs or sneezes.

If you have any concerns, we recommend that you reach out to your health practitioner. More information on COVID-19, including symptoms and treatment, visit the CDC website at [www.cdc.gov](http://www.cdc.gov).
